
FIRE SERVICE FEE – HYDRANT FEES

Voted on November 13, 2017

Fire Service Fees – Hydrant fees

John Gray motioned that anything that is not a town owned road will be charged an annual hydrant fee of \$175.00/per hydrant, the fee shall cover minor maintenance, flushing, painting, greasing, and hydrant flags.

Fire services shall be based on size as of July 1, 2018.

1.5" to 2" = \$400.00

4" = \$600.00

6" to 8" = \$700.00

Jim Sheehan seconded the motion all were in favor.

This motion was based on a Water Rate Study prepared by Environmental Partners in 2016. The study looked at the future capital improvement needs for the Water Department and methods for funding these projects. This report references industry standards set by AWWA and the theory behind the above fee structure. The full report is available on line at our website www.grovelandwaterandsewer.com.
